

## SCAN-ON-DEMAND

### How fast do you need your document?

You want it now. The weather is bad and the courier is stuck in traffic. Even on a good day, your office is an hour away – if your courier stays within the speed limit.

### Have your document in minutes!

Don't pick up the phone. Pick up your documents — in seconds. Increase efficiency and your bottom line by selecting a better way to manage your own documents — online with DataLockDown's Scan-On-Demand.

Access your digitally scanned documents and instantly transmit your electronic files to your desktop pc with Scan on Demand. By using DataLockDown's Scan-On-Demand, we make it easier to meet deadlines and demanding client's need.

DataLockDown's Scan-On-Demand will save you time, reduce overhead cost and assist with increasing your bottom line. It's quick and easy. You are just a click away!  
We answer our client's needs.

**Electronic Delivery.**  
**Save Time and Money.**  
**Let Technology Work for You.**

**Get the Solution.**

### There is No Speed Limit.

We scan and deliver files and individual documents in minutes with Scan-On-Demand. Our clients can instantly view their digital files online using the DataLockDown Client Web Server. Scan-On-Demand is fully integrated with our Records Management Software. We have combined these products to offer you, the customer, full range of digital imaging solutions working together to meet your daily and demanding business needs.
